DYLAN NELSON

Brooklyn, NY • dylanonelson@gmail.com • dylanonelson.com • GitHub

Full stack web developer with 10 years of experience as a software engineer and 1+ years as a tech lead. Strengths include product engineering, technical scoping, and frontend web. Recently at Recurse Center focusing on AI applications and AI-augmented development.

WORK EXPERIENCE

DROPBOX • Dec 2019–Apr 2025

IC2 → IC3 → IC4 (*tech lead*)

- Team DRI for the on-time general availability launch of Dropbox Replay, a video review app, coordinating delivery, QA, and rollout, leading to >$1m in revenue
- Planned and executed Replay features spanning React frontend, Python backend, the filesystem, and the database, such as captions, internationalization, and search
- Implemented on-call procedures by establishing key metrics, creating playbooks in Confluence, and configuring alerts on Sentry and internal platforms
- Added capabilities to Python AI search pipeline and migrated legacy clients

THE NEW YORK TIMES • 2015–2019

Software Engineer → Senior Software Engineer, CMS team

- Shipped custom ProseMirror track changes implementation in collaborative article editor used by newsroom as interim tech lead
- Created widely-used Node.js command-line developer tool—adoption over 90%

THE GREAT BOOKS FOUNDATION • 2011–2015

Digital Production Editor, Project Editor

- Developed ebooks based on print files using HTML, CSS, and custom scripts
- Decreased time-to-printer by 30% by redesigning production workflow

EDUCATION, ETC.

Professional development & sabbatical • Apr 2025–present

- *Recurse Center*, Sep–Dec 2025: Self-directed programming retreat
- *UCSD Extension*, Jan–Mar 2026: Courses to prepare for Master's in AI

LOYOLA UNIVERSITY CHICAGO • 2011

BA Classics • Summa Cum Laude with Honors • GPA 3.99
